

Deep-Dive into Sustainable Reporting

2-day program

📅 Date: 12 & 13 November 2025

🕒 Time: 9am – 5pm

📍 Venue: Dorsett Grand Subang

Program Overview

In collaboration with Deloitte, ESG Business Institute and Genashtim, this two-day training introduces participants to ESG and sustainability reporting, including global standards, GHG emissions, and climate-related financial disclosures. It combines practical insights, group activities, and case studies to support application of reporting principles in a changing regulatory landscape.

Pre-requisite

Participants, ideally, should have a background in finance or corporate reporting and basic awareness of sustainability principles.

Objective

By the end of this workshop, you will be able to:

- Explain foundational ESG and climate reporting concepts, including GHG emissions and net zero.
- Apply the full ESG and climate reporting process using relevant standards and frameworks.
- Analyse the relationship between sustainability performance and financial risks.
- Evaluate emerging trends in ESG and climate reporting and their business implications.
- Build practical skills through interactive activities, real-world case discussions, and group exercises.

Methodology

- Interactive presentations
- Guided walkthroughs of reporting frameworks
- Group activities and discussion
- Case studies
- Hands-on use of reporting tools and templates

Ideal Participants

- Finance professionals
- Sustainability officers
- Corporate reporting teams
- ESG consultants
- Internal auditors looking to deepen their practical expertise in sustainability reporting
